## "When Jack Comes Home Again"

When "the boy" comes home from school or college for his Christmas vacation-he'll show the effects of being absent from the paternal roof since September. Or, rather, his wardrobe will,

The boy's wardrobe will need replenishing. While he is home, you ought to see that he is completely "togged out"-he must be supplied with all the clothing he will need until he comes home again next June.

Many St. Louis parents are sending in their boys to us these days. And we are sending them back to their parents with all the clothing necessary for both their social and school duties for the coming

But the months will slip by, as months usually do, and before home-coming time again arrives, the boy will need a Spring Suit, and perhaps a few extra pairs of trousers. We are quoting special prices

for the young men on spring suits and trousers. You couldn't make your boy a better present or one that would please him more than a complete outfit of MacCarthy-Evans clothing. HE knows what "MacCarthy-Evans" clothing is.

Opposite Post Office.

Riot Call Sent In and Police Captured Him After a Chase.

John Crane, a negro, whose home is said to be in St. Louis, created much excitement in the western part of East St. Louis yesterday afternoon, A number of women and children and several men were badly frightened before the man was finally caught and taken to the police station. caught and taken to the police station.

Crane came over the river to visit with some friends. On the way he imbibed freely and on Broadway near the approach to the Eads bridge, he fell and rolled down the embankment, on top of which the street is laid. Screaming like a madman Crane ran down Broadway. A policeman and several citizens started in pursuit, but he quickly outdistanced them. On through the western part of the town the negro ran. Women and children were badly ran. ran. Women and children were badly frightened. Several men who attempted to stop him, changed their minds. A riot call was sent to the police station and several policemen and the patrol wagon were sent out to capture the negro. He was finally caught near the river and was taken to

the police station. He labored under the delusion that enemies were trying to kill him.

The East St. Louis Salvation Army will give a free dinner to the poor on Christmas Day. Contributions are being received at No. 523 Illinois avenue for the dinner.

# A DREAM OF HAPPINESS

### That May Yet be Realized By Blood Poison Sufferers.

It is the hope of every man to some day establish a home of his own where he can enjoy the sweet companionship of a loving wife and bright, happy children; and many times in the quiet and seclusion of his bachelor quarters his imagination paints beautiful pictures of domestic happiness, and he sees in fancy a peaceful and contented little family circle, into which he cares and worries of the outside world are never allowed to enter, and where love is the only law. Poverty keeps many from marriage, but their number is small compared to the mighty host of unfortunates who are victims of that heinous disease, Contagious Blood Poison, and shut out from the enjoyment of matrimonial happiness. Riches in plenty, social

position, and the highest honors may have been won, but all these would the unhappy lover exchange for health and the assurance that no symptoms of this loathsome malady would ever come back; that no taint of this black sin remained in his blood to be transmitted to posterity or blight the life of the one he had promised to love and protect.

Contagious Blood Poison has brought more misery into the world than all other diseases combined. There is no limit to its powers for evil; happy homes are broken up, and confidence and affection turned to distrust and hatred by this slimy, hissing serpent. So highly contagious and treacherous is this disease

and so surely transmitted to others that those whose blood has Parents' Responsibility Great been polluted by this awful virus may well pause and consider

-is it safe for me to venture? Will my marriage bring happiness, or degradation, suffering and shame? Often-times all evidences of blood poison disappear and marriage is contracted under the mistaken belief that all danger of contaminating others is past, but your dream of happiness is rudely disturbed when you behold the return of the disease, and the pure and innocent wife must share your shame, and the weakly little infant bear upon its body the marks of this loathsome malady.

Whoever relies on Mercury and Potash as a cure for Contagious Blood Poison takes desperate chances, for these drugs cover up and mask the symptoms but drive the poison deeper into the blood and system, where it feeds upon some vital organ and periodically breaks out upon the skin. The effect of Mercury and Potash upon the system is simply terrible. They eat out the lining of the Stomach and destroy the gastric juices, producing a bad form of dyspepsia. They also penetrate the bones and muscles, when Rheumatism and offensive sores are the result. Salivation often follows their use, and the teeth and gums become so sore that solid food cannot be taken, and the body wastes away for want of nourishment. We have a standing offer of \$1,000 for proof that S. S. S. contains one single mineral ingredient. It is a combination of vegetable alteratives and tonics that make it beyond all question the purest and safest of all blood purifiers. For many years S. S. S. has been recognized as a Specific for Contagious Blood Poison, and a perfect antidote for the virus that makes this disease so terri-

ble and far reaching in its effects upon the human system. So thoroughly and completely does S. S. S. cure this disease that no recurring symptoms are ever seen, and the blood is made as pure and strong as before the taint of this fearful curse entered. It will cure you and remove all danger of transmitting to future posterity blood poison in any of its varied forms, and its use will bring back health to those you have unwillingly infected, and your home be made as bright and cheerful as heart could wish, and your dream

of happiness becomes a living reality. We will gladly help through our Medical Department those who write us about their case. Our physicians have had large experience in treating Contagious Blood Poison, and you can have the benefit of their skill without charge. Self treatment book, attaining valuable information about this disease, will be sent free. THE SWIFT SPECIFIC COMPANY, Atlanta, Ga.
